DETAILED ACTION

1. Claims 1-29 and 31-75 are pending.
2. Claims 1, 24, and 47 are independent.

Response to Amendment

3. The rejection of claims 1-29 and 31-75 are rejected under 35 U.S.C. 103(a) as obvious over Herron et al. (US 5,137,537) is withdrawn in light of applicant's amendments and arguments filed.

Reasons For Allowance

4. The following is an examiner's statement of reasons for allowance: Claims 1-29 and 31-75, renumbered 1-74, are allowable over the prior art of record. The amendment and arguments filed by the applicant's are sufficient to place the instant claims in condition for allowance.

The most pertinent prior art is Herron et al. (US 5,137,537). However, Herron et al. use non-polymeric crosslinking agents to maintain curl. Herron et al. fail to disclose chemically treating cellulosic fibers with an intra-crystalline swelling agent in the absence of polymeric reactive compounds thereby imparting the specific curl value to the fibers and further treating the fibers with a polymeric reactive compound having the reactive groups as recited by the instant claims. Accordingly, the instant claims are deemed allowable.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
